Page plan: what each page must answer

Sketch on paper or in Word. Nothing is built in Power BI yet except a test connection.

1 · Overview

For leadership. Is the business healthy?

Customers | Leads | Conversion

Deal value | First reply | Late pay

Monthly leads line, stamp duty marker

Tables: clean_leads, clean_transactions, clean_payments, clean_customers

2 · Segment deep dive

For marketing. Who are our customers and which segments bring value?

Share of customers vs share of value by segment

UK vs overseas, budget, browsing

Waits for DS segments (Day 9–10)

3 · Pipeline and agents

For the sales director. Which channels convert, how fast do we reply?

Conversion by first-reply band

Seniority: reply time and conversion

Tables: clean_leads, clean_agents, clean_interactions

4 · Payments and lettings

For finance. How much money is late, and is it getting worse?

Late or overdue share by month due

Deals vs value: sales vs lettings

Tables: clean_payments, clean_transactions

Plus a hidden **Data check** page for the DA team (row counts, data issues, KPI reconciliation). In Power BI today: connect to **localhost / veltrix** to prove the connection works, and set up the business question log in Excel.

Veltrix | Overview | Segment deep dive | Pipeline and agents | Payments and lettings | Data check | Data to 30 Sep 2026

1 Insert › Shapes › Rectangle, fill navy **2** Insert › Text box: type Veltrix, white, 22 pt **3** Insert › Buttons › Navigator › Page navigator **4** Insert › Text box: Data to 30 Sep 2026

Rows loaded per table (Card visual, ID column set to Count, display units None)

locations 36	agents 300	customers 102,000	campaigns 270	leads 95,804	interactions 532,789
properties 16,667	site_visits 233,593	transactions 16,665	payments 106,199	campaign_responses 808,953	web_sessions 2,003,460

Reconciliation: Power BI rows vs SQL COUNT(*)

table_name	powerbi_rows	sql_rows	matches
agents	300	300	True
campaign_responses	808,953	808,953	True
customers	102,000	102,000	True
interactions	532,789	532,789	True
leads	95,804	95,804	True

... 7 more rows, all True

Checkpoint, end of Day 2 (about 10%)

Power BI connected in Import mode

Every row count equal to SQL

Veltrix theme applied (Design › Themes)

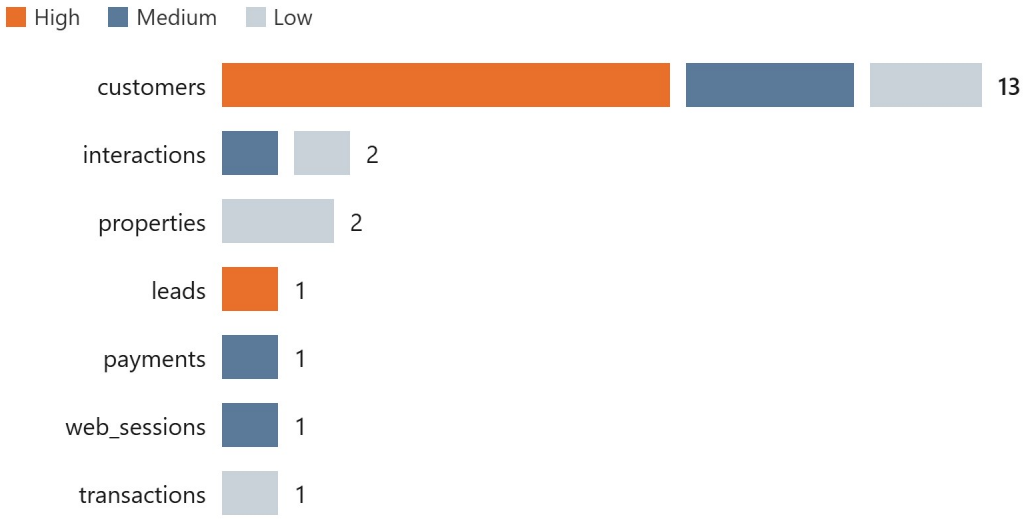

Header group copied to all 5 pages

property_views (15.2M rows) stays in SQL only

The Day 2 row-count cards and reconciliation table stay on this page; the two Day 3 charts go below them (or on a second Data check page).

Customers carry 13 of the 21 data issues

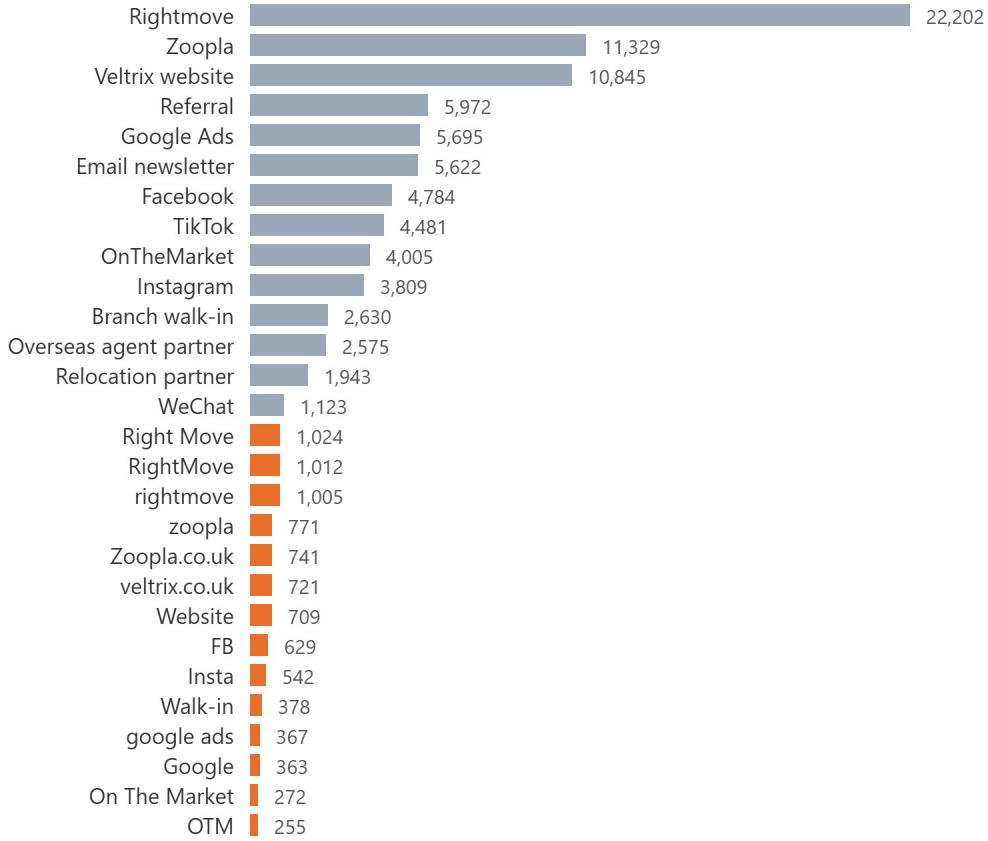

Stacked bar chart · Y: table_name · X: Count of issue_id · Legend: severity · Filter: severity is not Pass or Info

KPI footnote (text box, on every page): Conversion = won ÷ closed leads (Won + Lost), open leads excluded. Deal value = agreed price for sales; monthly rent × tenancy months for lettings. Customers counted after merging duplicates.

28 spellings for 14 channels: the channel chart needs cleaning

Bar chart from raw leads · Y: lead_source · X: Count of lead_id, sorted descending · **orange = variant spelling**

Last 12 months (Oct 2025 – Sep 2026)

Open pipeline now: **4,380 leads**

Customers	Leads	Conversion	Deal value	First reply	Late payments
100,573	**28,999**	**17.8%**	**£1,440m**	**4.1 h**	**8.0%**
after merging 1,427 duplicate records	+2.2% on the year before	won ÷ closed, down from 18.7%	by contract date, up from £1,189m	median; only 15.6% within 1 hour	of payments due, up from 7.5%
Measure: Customers	Measure: Leads 12m	Measure: Conversion % 12m	Measure: Deal value 12m	Measure: Median first reply (h) 12m	Measure: Late payments % 12m

Space for the Day 5 monthly leads line chart

Conversion = won ÷ closed leads (Won + Lost). Deal value = agreed price for sales; monthly rent × tenancy months for lettings. Customers counted after merging duplicates. All visuals read clean_* tables.

Veltrix

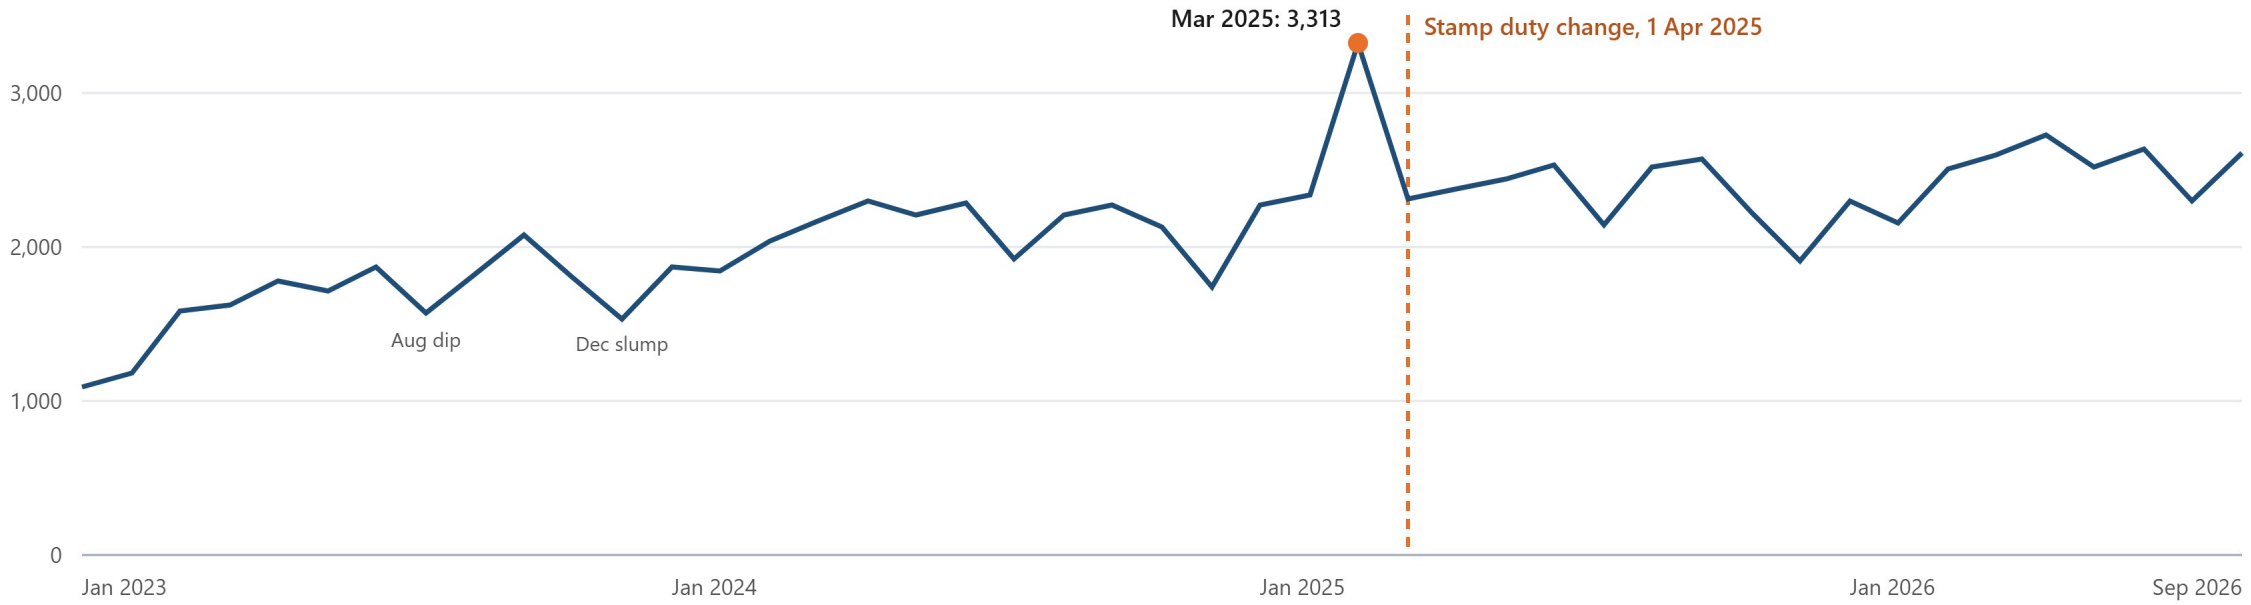

Overview | Segment deep dive | Pipeline and agents | Payments and lettings | Data check

Data to 30 Sep 2026

Customers	Leads	Conversion	Deal value	First reply	Late payments
100,573	28,999	17.8%	£1,440m	4.1 h	8.0%
after merging duplicates	+2.2% on the year before	down from 18.7%	up from £1,189m	15.6% within 1 hour	up from 7.5%

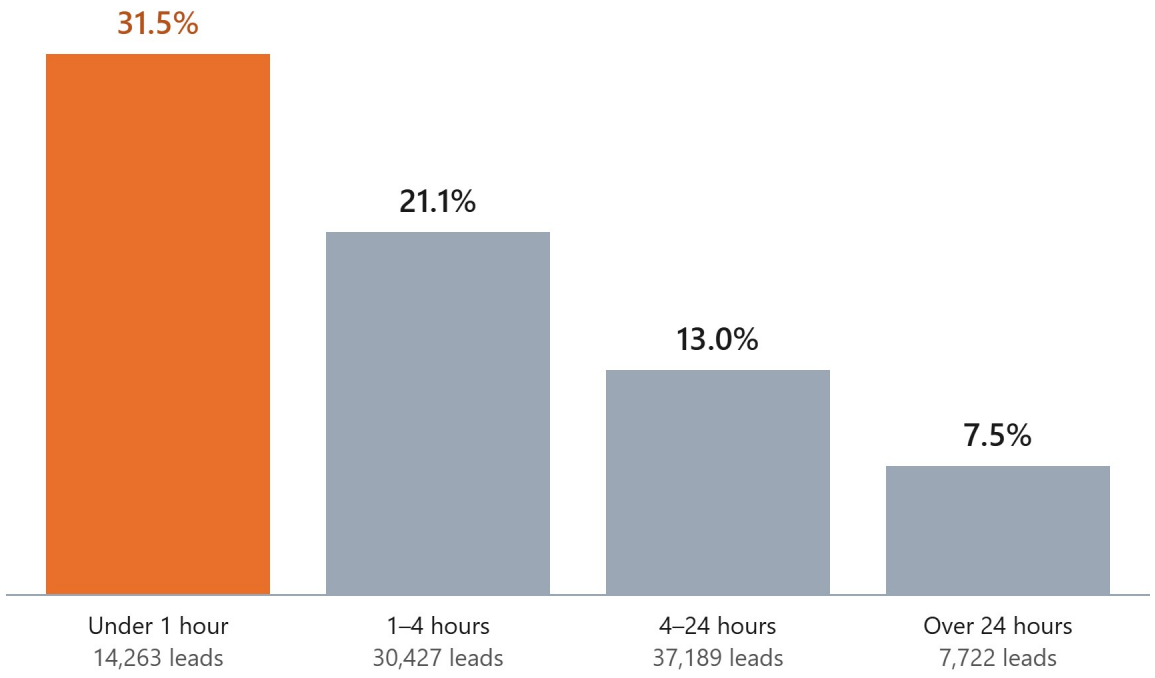

March 2025 leads jumped 42% before the stamp duty change

Line chart · X: monthly_trend[month] (Type: Continuous) · Y: leads · Analytics › X-axis constant line at 01/04/2025

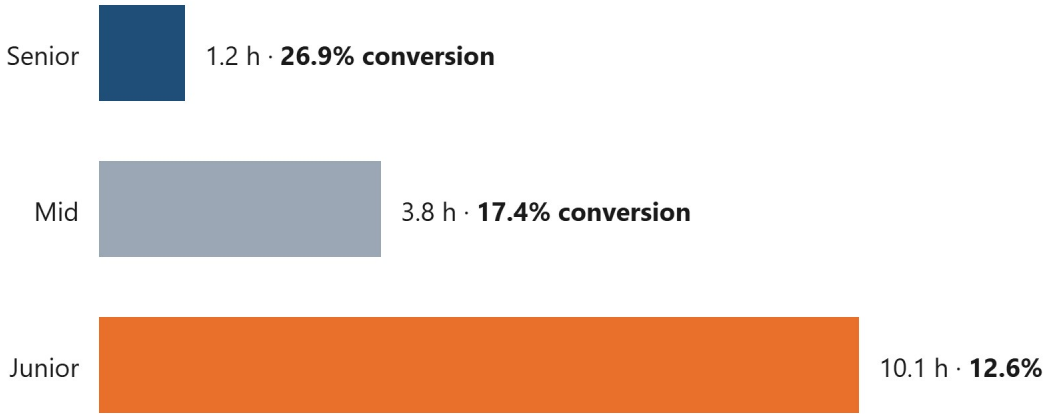

Leads answered within an hour convert 4.2× as often

Line and clustered column chart · X: first_reply_band (Unknown filtered out) · Columns: Conversion % · Line or labels: Closed leads

Seniors reply in 69 min and convert 26.9%; juniors take 10 h and convert 12.6%

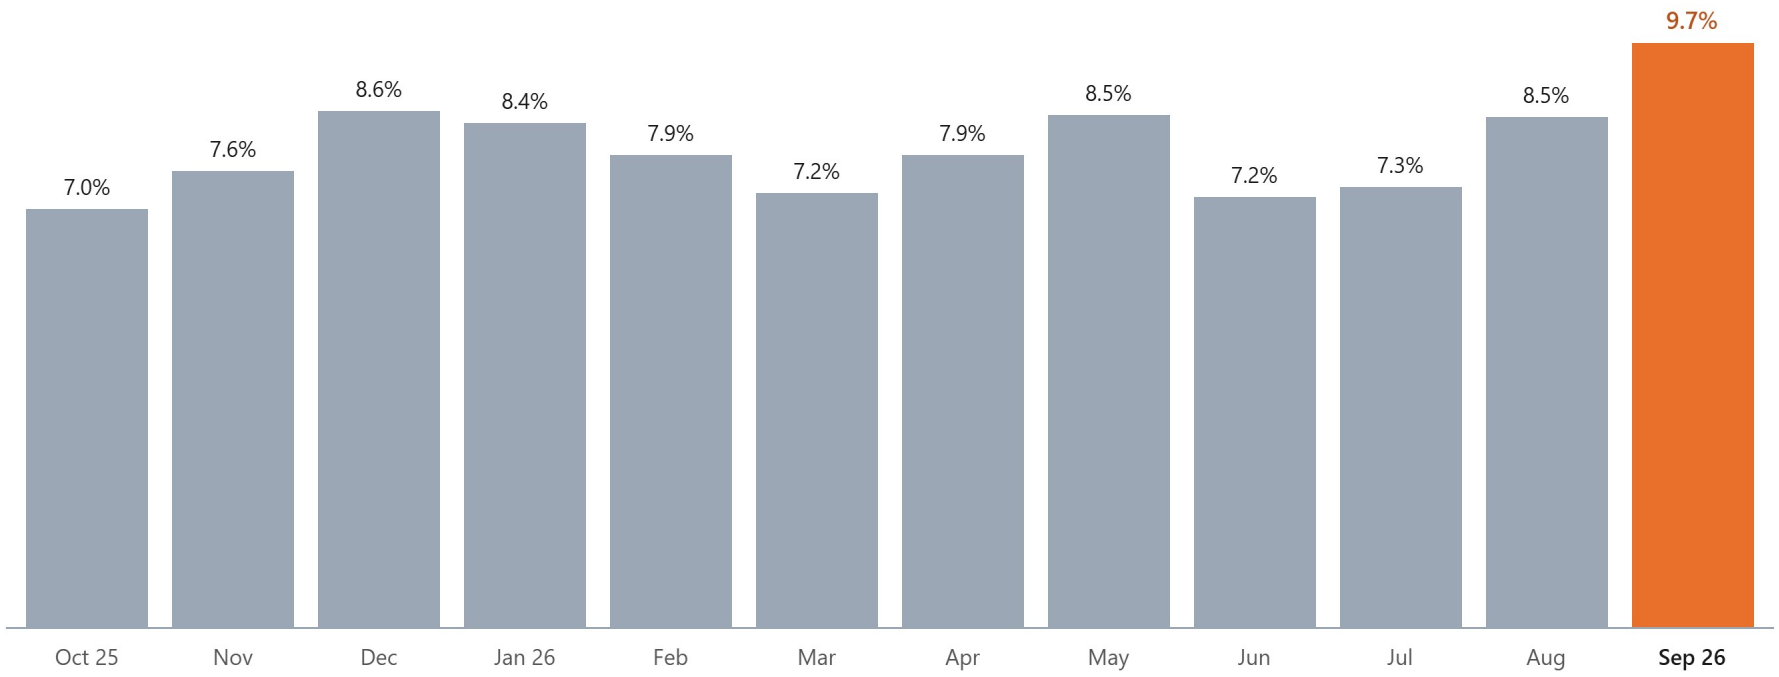

Clustered bar chart · Y: clean_agents[seniority] · X: Median first reply (h) · Data labels › Value: Conversion %

Reply speed explains 55% of the gap: at seniors' speed, juniors would convert at 20.4%.

Late share is flat at 7–9%; September is high because 95 payments are not yet chased

Column chart from eda.late_share_by_month_due · X: month_due · Y: late_pct · Columns › Colour › fx rule: Sep 2026 orange · Tooltip: still_overdue

Late payments, 12 months

8.0%

up from 7.5%

Still overdue

146

51 due in Aug, 95 due in Sep 2026

Later weeks: deals vs value, sales vs lettings (lettings are 28% of deals, 2.9% of value)

Segment deep dive

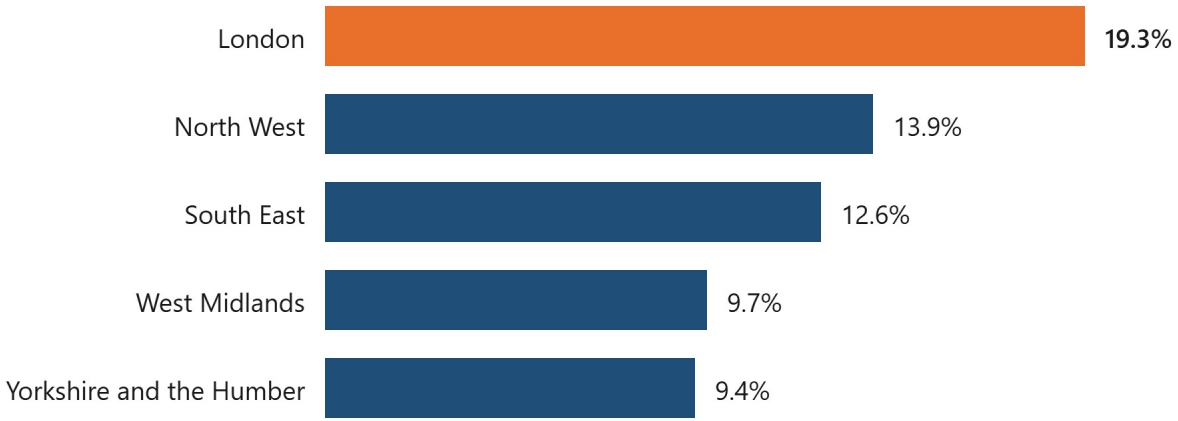

Overseas customers do a quarter of their browsing between midnight and 6am UK time.

Customer type (temporary) **All** v | Intent **All** v | Region **All** v

Sessions 00:00–06:00 UK	Virtual-tour share	New-build views	Living overseas
4.8%	**4.8%**	**32.0%**	**9.4%**
overseas customers 24.2%	of property events; overseas buyers 16.3%	of property events	of customers

Where they look: London draws 1 in 5 property views

Bar chart · Y: region_views[region] · X: Region share of views · Filter: Top 5 by Region views

London: 19.3% of views, 21.0% of deals, 28.4% of deal value.

How they browse: UK renters are on mobile 80% of the time

100% stacked bar · Y: clean_customers[customer_group] · X: Mobile, Desktop, Tablet sessions

Day 11 replaces the temporary slicer with the segment selector and adds segment profile charts.

Pipeline and agents

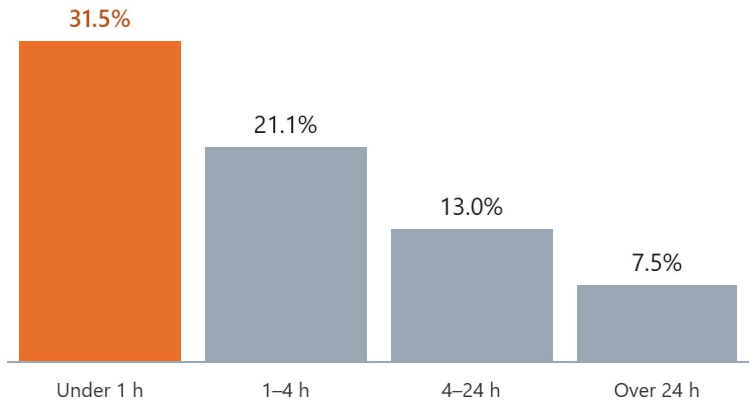

Leads answered within an hour convert 4.2× as often, yet only 15.6% get that reply.

Period **Last 12 months** v | Intent **All** v | Region **All** v

Leads	Won	Open pipeline	Answered within 1 hour
28,999	**5,108**	**4,380**	**15.6%**
created in the period	closed as won in the period	leads open on 30 Sep 2026	target: every P1 lead

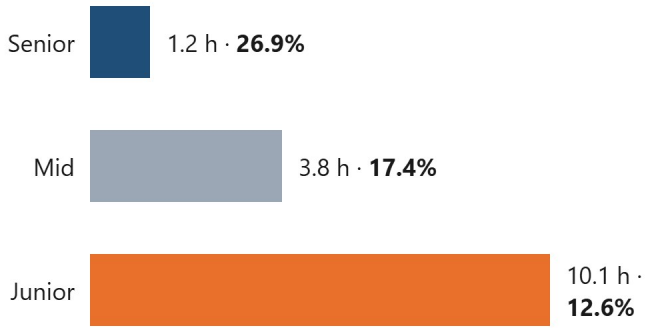

Leads answered within an hour convert 4.2× as often

Line and column · X: first_reply_band · Columns: Conversion %

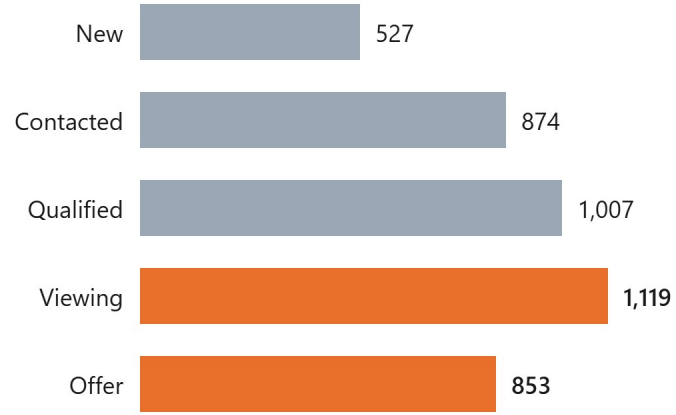

Juniors take 10 h to reply and convert 12.6%

Bar · Y: seniority · X: Median first reply (h) · labels: Conversion %

1,972 open leads are at viewing or offer

Bar · Y: lead_stage (sorted by stage_order) · X: Open pipeline

Median days open: Viewing 57, Offer 79.

Payments and lettings

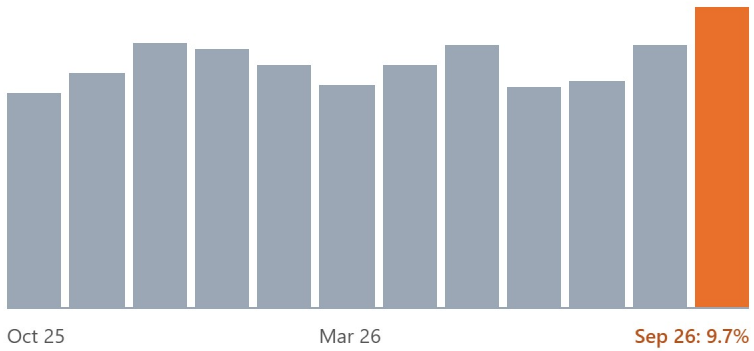

Monthly rent is paid late 9.9% of the time, nearly 3× the rate on sale payments.

Period **Last 12 months** ∨ | Intent **All** ∨ | Region **All** ∨

Payments due	Paid late or overdue	Overdue now	Late rate on monthly rent
37,012	8.0%	£1,762,324	9.9%
scheduled payments excluded	up from 7.5%	£1.51m is 5 completion balances	sale payments 3.6%

Late share is flat at 7–9%; Sep is high because 95 are not yet chased

Column · X: month_due · Y: late_pct (Day 5)

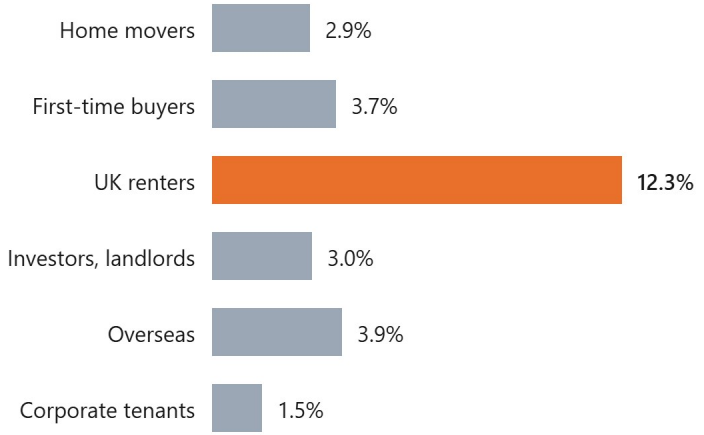

Lettings are 28% of deals but 2.9% of deal value

Table · transaction_type, Deals, Deal value (data bars) · all time

Type	Deals	Deal value
Resale purchase	9,063	£2,801m
New-build purchase	1,866	£704m
Off-plan purchase	1,098	£427m
Company let	1,311	£60m
Assured shorthold tenancy	3,327	£57m

UK renters pay late 12.3% of the time

Bar · Y: segments[segment_name] · X: Late payments % · colour: Late bar colour (placeholder-A)

All-time values shown; sorted by segment size.

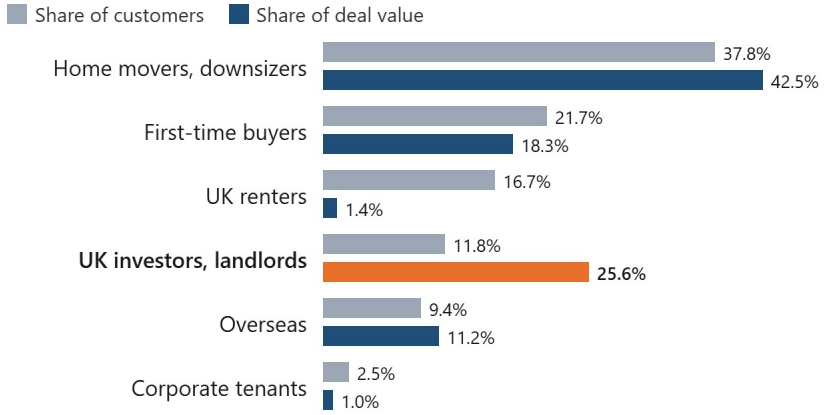

Overview

Deal value is up 21% to £1,440m, but conversion slipped from 18.7% to 17.8%.

Period **Last 12 months** v | Intent **All** v | Region **All** v

Customers	Leads	Conversion	Deal value	First reply	Late payments
100,573	28,999	17.8%	£1,440m	4.1 h	8.0%

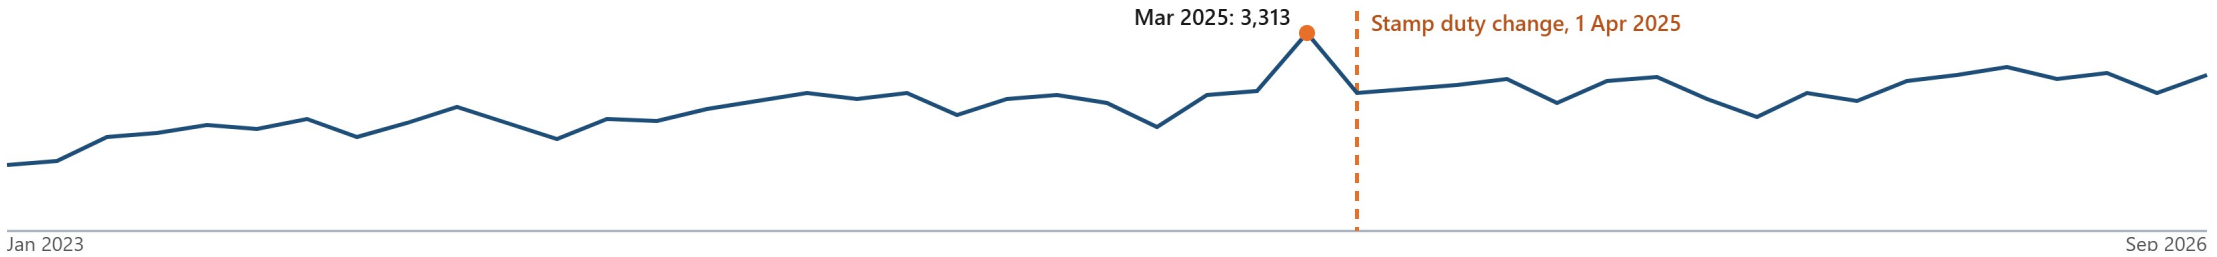

Investors are 12% of customers but 26% of deal value

Segments at a glance (all time)

Segment	Customers	Leads	Conversion	Deal value	Reply (h)	Late %
Home movers, downsizers	38,011	29,042	17.2%	£1,719m	3.8	2.9%
First-time buyers	21,871	21,407	12.3%	£742m	4.4	3.7%
UK renters	16,818	13,591	24.9%	£59m	3.3	12.3%
UK investors, landlords	11,902	20,633	19.5%	£1,035m	4.0	3.0%
Overseas	9,462	8,913	16.8%	£454m	6.4	3.9%
Corporate tenants	2,509	2,218	38.9%	£39m	2.6	1.5%

March 2025 leads jumped 42% before the stamp duty change

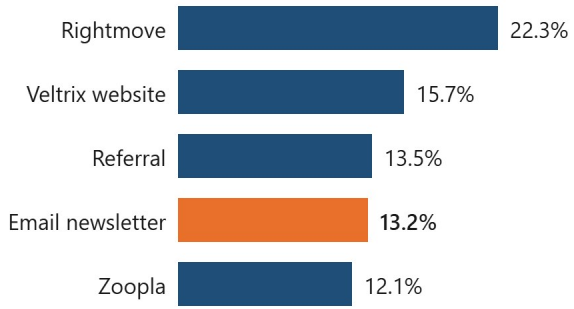

Segment deep dive

Yield Investors are 12% of customers but bring 26% of deal value; e-mail reaches them at £28 a lead.

Home movers | First-time buyers | UK renters | **Investors and landlords** | Overseas buyers | Corporate tenants

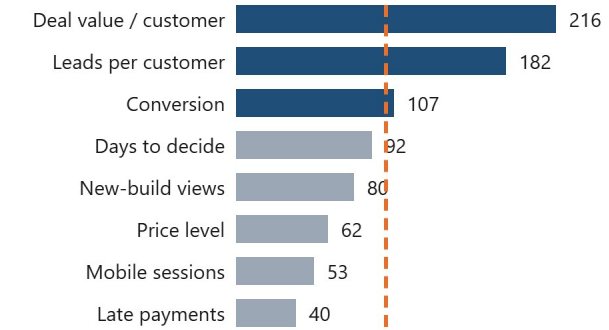

Customers	Median price level	Conversion	Share of deal value	Days to decide	Late payments
11,902	£195k	19.5%	25.6%	33	3.0%
11.8% of customers	all buyers £315k	vs 18.2% for all	2.2× their share	vs 36 days for all	vs 7.6% for all
